Senior User Experience Designer

UX professional with 10+ years of experience designing enterprise and SaaS platforms across fintech, analytics, energy, and security industries. Experienced in **User-Centered Design grounded in research, usability testing, and iterative validation**, translating complex business requirements into intuitive, scalable solutions that streamline workflows and improve operational efficiency. Lead discovery, define complex workflows, and guide solutions from concept through delivery.

Core Skills

- User-Centered Design (Research, Usability Testing & Iterative Validation)
- Enterprise Workflow Modernization
- Information Architecture & Interaction Design
- Design Systems & Component Libraries
- Data Visualization & Complex Interfaces
- Stakeholder Collaboration & Agile Product Development

Professional Experience

Senior Interaction Designer | Allegion | Remote | 2022 – 2026

- Led UX for a subscription-based key management platform, replacing spreadsheet-based tracking with a centralized digital lifecycle system.
- Unified fragmented workflows across key creation, inventory management, and holder tracking.
- Partnered with research, product, and engineering to validate usability and reduce operational friction.
- Delivered prototypes and UX documentation supporting MVP launch and enterprise adoption.

Senior Product Designer (Contract) | Wells Fargo | Remote | 2021 – 2022

- Led discovery and journey mapping for enterprise financial initiatives in compliance-driven environments.
- Translated complex regulatory workflows into streamlined digital experiences aligned with business KPIs.
- Delivered validated prototypes that informed roadmap and implementation decisions.

Senior UX Designer / UX Architect (Contract) | NextEra Energy | Remote | 2020 – 2021

- Designed enterprise applications focused on safety and operational efficiency for field teams.
- Improved clarity in high-stakes workflows through research and usability validation.
- Developed reusable UI components to increase system consistency.

User Experience Architect | Nielsen | Remote (Chicago, IL) | 2012 – 2020

- Designed analytics dashboards supporting global consumer data interpretation and decision-making.
- Simplified complex data ecosystems into actionable, user-centered interfaces.
- Contributed to enterprise design standards and scalable component libraries.

UX / Visual Designer | Citrix Systems | Fort Lauderdale, FL | 2004 – 2011

- Designed cross-platform user interfaces across Windows, Mac, and mobile applications.
- Developed visual standards and collaborated closely with engineering through implementation.
